PRODUCT BROCHURE

Laser Welding Systems

Complete model reference — specifications, codes and indicative pricing

Made to Order · CE Certified · Delivered Nationwide

Prices are indicative, ex-VAT, correct as at 3 November 2026 — confirm current pricing when you enquire.

Make Things Easy

Category Overview

Handheld and robotic laser welding systems — from portable field repair to fully automated production cells — for automotive, rail, equipment manufacturing and shipbuilding.

Code	Category	Models	Pricing
LWP	Portable Laser Welders	4	From ZAR 104 500
LWS	Standard Water-Cooled Welders	3	From ZAR 97 900
LWM	Professional Welders (Metal Gun)	3	From ZAR 118 700
LWR	Robotic & Automated Welding Solutions	5	Price on Application

Pricing shown is indicative (from the lowest-priced model in each category) — see individual category pages for full model-by-model detail.

Portable Laser Welders

LWP · From ZAR 104 500

Air-cooled, no chiller required — the lightest, quickest-to-deploy welders in the range.

APPLICATION Portable, on-site metal welding — quick setup with no chiller needed

BEST SUITED FOR Field repair, site work, light fabrication

POWER SOURCE Single-Phase 220V

Model	Power	Welding Thickness	Weight	Typical Use
LWP-3	0.8kW	CS/SS: 0.5-3mm	35kg	Light repair, thin-gauge fabrication
LWP-4	1.2kW	CS/SS: 0.5-3mm	40kg	General site & workshop repair
LWP-5	1.5kW	CS/SS: 0.5-4mm	50kg	Heavier portable fabrication work
LWP-6	1.5kW	CS/SS: 0.5-4mm	50kg	Heavier portable fabrication work

Standard Water-Cooled Welders

LWS · From ZAR 97 900

Water-cooled with a light plastic-rubber welding gun — sustained welding of steel, stainless and aluminium.

APPLICATION Workshop welding of carbon steel, stainless steel & aluminium

BEST SUITED FOR General fabrication, sheet metal, workshop production

POWER SOURCE Single/Three-Phase 220-380V

Model	Power	Welding Thickness	Weight	Typical Use
LWS-1500	1.5kW	CS/SS: 0.5-4mm / AL: 0.5-3mm	124kg	General fabrication & sheet metal
LWS-2000	2.0kW	CS/SS: 0.5-4mm / AL: 0.5-3mm	144kg	Workshop production welding
LWS-3000	3.0kW	CS/SS: 0.5-6mm / AL: 0.5-4mm	164kg	Heavier-gauge workshop welding

Professional Welders (Metal Gun)

LWM · From ZAR 118 700

Water-cooled with a heavier-duty 4-in-1 metal welding gun — the highest-spec handheld tier, built for continuous professional use.

APPLICATION Heavy-duty professional welding — higher-thickness carbon steel, stainless & aluminium work

BEST SUITED FOR Continuous production welding, thicker material, professional fabrication shops

POWER SOURCE Single/Three-Phase 220-380V

Model	Power	Welding Thickness	Weight	Typical Use
LWM-1500	1.5kW	CS/SS: 0.5-4mm / AL: 0.5-3mm	195kg	Professional fabrication shops
LWM-2000	2.0kW	CS/SS: 0.5-4mm / AL: 0.5-3mm	195kg	Continuous production welding
LWM-3000	3.0kW	CS/SS: 0.5-6mm / AL: 0.5-4mm	240kg	Heaviest-duty handheld welding

Robotic & Automated Welding Solutions

LWR · Price on Application

Robot-driven laser, arc, and laser-arc hybrid welding cells — from standard robotic arc welding to teaching-free, digital-twin-programmed production lines.

APPLICATION Automated, robot-driven welding integrated into a production line or fixed workcell

BEST SUITED FOR Auto parts, rail transit, equipment manufacturing, shipbuilding, bridge steel structures

POWER SOURCE Three-Phase 380V

System	Power / Capacity	Configuration	Typical Applications
LWR-HYBRID	12-20kW laser + arc	Robot + ground rail, dual heat source	Medium-thick sheet, one- or both-sides welding
LWR-RW	1.5-6kW	Standard or protective-chamber robot cell	Large-format automated laser welding
LWR-RMW	350A / 500A	Standard or protective-chamber robot cell	General-purpose robotic MIG/MAG arc welding
LWR-RMWTF	500A	Teaching-free, 7/8/9-axis, digital twin	No-programming robotic welding, multi-station
LWR-CMW	350A / 500A	Mobile trolley-mounted collaborative robot	On-site welding of large workpieces (ships, bridges)

CONTACT & ORDERING

Ready When You Are

Every model in this catalogue is made to order. Reference the Easysmith code when requesting a quotation – and try out the Selection Guide if you're uncertain.

- easysmith.co — browse the range & download this catalogue
- info@easysmith.co · +27 84 391 8732
- Response within 2 business days
- Delivered nationwide, across all 9 provinces
- CE certified · SANS/OHS compliant · ISO 9001:2015
